PROFILE

Multidisciplinary builder working at the intersection of AI engineering, creative direction, and digital operations. I design intelligent multi-agent systems, craft high-retention visual media, and orchestrate complex digital logistics — bridging deep technical architecture with premium visual storytelling.

CORE SKILLS

LANGUAGES

Python · SQL · FastAPI · LangChain · LangGraph · CrewAI

AI & CLOUD

Vector DBs (FAISS/Chroma) · MCP · Docker · GCP · AWS · Azure

DESIGN & MEDIA

Figma · Canva · Premiere Pro · CapCut PC · Motion Graphics

DIGITAL OPERATIONS

Alliance Diplomacy · Cross-Functional Leadership · Logistics · MVP Scaling · Automation

SELECTED WORK

01 DocuMind — RAG ASSISTANT

Engineered a Retrieval-Augmented Generation assistant utilizing vector databases and FastAPI to securely query private knowledge bases.

Python · LangChain · Vector DBs · FastAPI · GCP

02 The Pulse — CREATIVE PIPELINE

Directed the visual identity, recruitment campaigns, and end-to-end production infrastructure for the “Beyond the Classroom” podcast incubator.

Figma · Premiere Pro · Creative Strategy · CapCut

03 OpsAgent — LOGISTICS

Managed complex server migrations and diplomacy for global digital communities, modeling multi-agent orchestration to streamline cross-functional logistics.

CrewAI · n8n · MCP · Python · Automation APIs

04 Cinematic Motion — VISUAL MEDIA

Produced high-retention short-form video media focusing on precision audio-syncing, motion typography, and dynamic automotive visual edits.

Premiere Pro · Audio Syncing · Motion Graphics
